Print3D
Help & Quick start guide
for Windows
Extract the installer from the zip file.

Double click "GUllinstaller-5.0.3461.0.msi". Print3D will install into C:\Program Files (x86)\3D Systems\Print3D

Once Print3D is finished installing, there will be a shortcut on your desktop and start menu.
Available Printers
To connect, select printer from list then click “Use” to connect.

Note: Only when PC and the Printer are on the same subnet address will printers populate this area.

Attention
First time connecting to a printer will be slow, be patient.

Use Button
Press once printer is selected

Connect with IP
To connect to a printer on a different subnet address, simply type in the printer’s IP address. Click “Use” to connect.
