ProJet™ Curing System Set-Up Instructions

Once parts finishing system is set up, refer to the ProJet™ Part Washer System User Guide. Enter http://3dpedia.3dsystems.com. Type in the User Name: pjpw and Password: pj001. Locate the user guide under ProJet™ documentation.

1. Open Curing Unit Carton

2. Remove styrofoam pack that contains the UV bulbs and other packing material from inside of unit.

3. Remove putty knife and clipper packs from inside of unit.

4. Remove the blue tape. Locate the turn table plate from package. Place plate on top of turn table.
