

## Subject: ProJet 6000 and 7000 CIB Announcing Controller Software v1.6.2864.0

3D Systems has released Control Software v1.6.2864.0 for the ProJet 6000 and ProJet 7000 3D printers. The software and release notes can be downloaded by following these steps:

1. Go to <http://support.3dsystems.com> and log into Infocenter.
2. Navigate to either the ProJet 6000 or ProJet 7000 printer page.
3. Scroll down to the section **Software Downloads** and to its subsection **Control Code**.
4. Click the link **ProJet6000\_ControlCode-1.6.2864.0.zip** to download the installation file.
  - a. Unzip the folder.
  - b. Move the file **ProJet6000 ControlCode-1.6.2864.0.msi** to a USB thumb drive.
5. Back on Infocenter, click the link **ProJet 6000-7000 - v1.6.2864 HF Release Notes - Rev D.pdf** to download the release notes.
6. The release notes have further information on: software-installation instructions, bug-fix overviews, and new-feature overviews.
