

 Advisory

 Repair

 Safety Alert

## Purpose:

**ProJet<sup>®</sup> 2500, 35X0, 3600, 5000, 5500X**

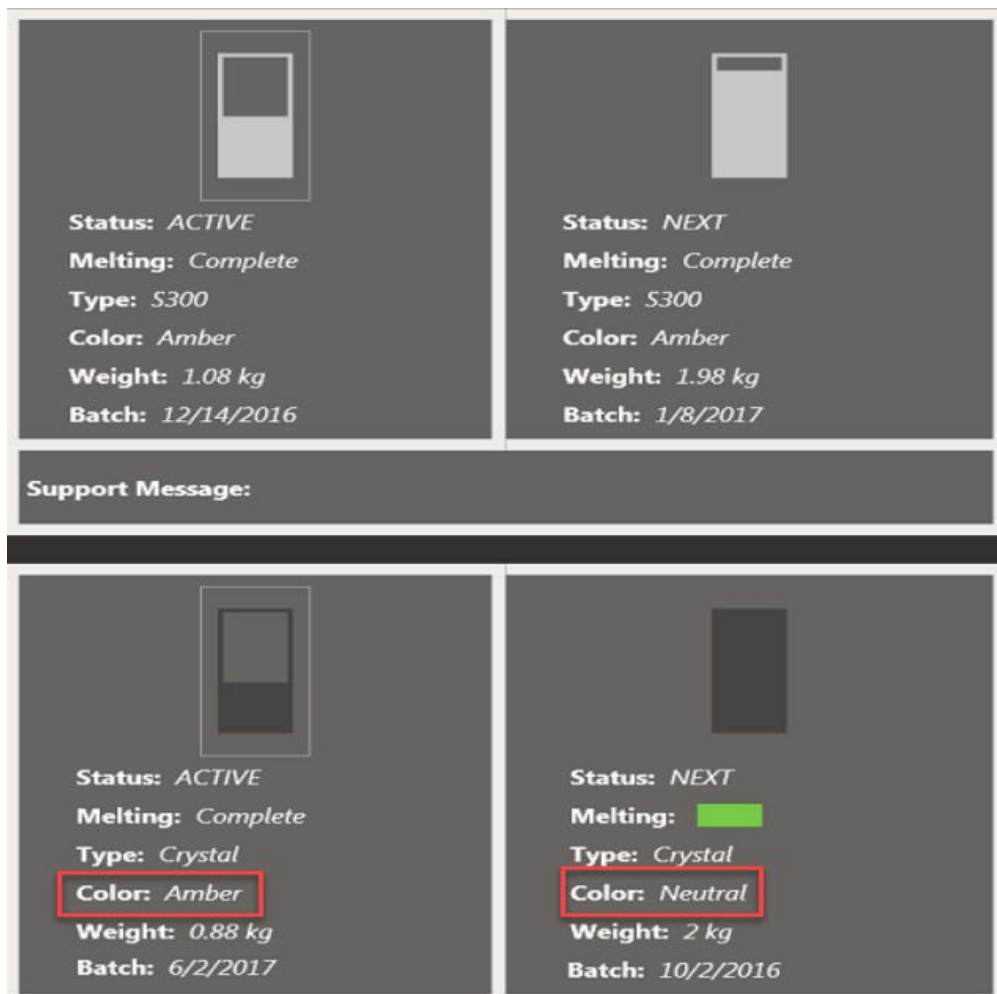

To inform the customer of incorrect displayed colors on the UI that may be present on certain materials.

## Problem:

Batches of certain materials produced prior to 12/28/16 may have an incorrect color displayed on the UI. Materials manufactured after 12/28/16 will have the correct color information displayed.

## Identification:

The below image is a screenshot from the UI that shows the same two materials with different color profiles due to the batch date it was created.
