Release Date: July 2018

Firmware: **ProJet® MJP 2500 IC firmware version 1.0**

3D Sprint™ Software: **2.9**

Release Date: July 2018

1 INTRODUCTION

We are proud to announce the new printer firmware version 1.0 and 3D Sprint™ Software 2.9

For more help and information, please visit the [Software Downloads](#) tab located in the Product Information Center.

2 NEW FEATURES

- Supports HD mode at 600 x 600 x 600 dpi and 42 micron layer resolution
- HD Build Speed is 1.8 to 2 times faster than 2500W XHD mode for full X-extent builds
- Supports new VisiJet® M2 ICast build and VisiJet® M2 IC SUW support materials
- Easy break away support structure
- The software verifies that material cartridges are genuine to prevent possible compromised part quality and print head damage from the use of non-genuine material cartridges. Material cartridge information and certain printer performance parameters are collected, but no personal or design data are collected.
